DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claim 1 recites an antenna system comprising an auxiliary antenna within a movable flip housing of a communication device, wherein the auxiliary antenna includes an electromagnetic radiator and a coupling probe, and a printed circuit board within a main housing of the communication device wherein the coupling probe couples the auxiliary antenna to the printed circuit board.

Claim 13 recites an antenna system comprising an antenna, a printed circuit board coupled to the antenna, wherein the printed circuit board is contained within a main housing of a communication device, a first portion auxiliary antenna within a movable flip housing of the communication device, and a second portion auxiliary antenna couple between the printed circuit board and the first portion auxiliary antenna.

Claim 18 recites an antenna system for use within a communication device comprising a front housing, a rear housing, a rotating hinge assembly coupled between the front housing and the rear housing, the antenna system comprising an electromagnetic radiator and a coupling probe constructed by adhering metallization on to one or more plastic portions of the rotating hinge assembly.

Claim 20 recites an antenna system for use within a communication device comprising a front housing, a rear housing, a rotating hinge assembly coupled between the front housing and the rear housing, the antenna system comprising an electromagnetic radiator and a coupling probe constructed by adhering metallization on

Application/Control Number: 10/613,682

to a non metallic decorative lens, wherein the non metallic decorative lens is coupled to the rotating hinge assembly.

None of the prior arts shows or suggests this antenna system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Allowable Subject Matter

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tan Ho whose telephone number is (571) 272-1822. The examiner can normally be reached on M-F (8:00AM - 5:00PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Don Wong can be reached on (571) 272-1834. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
